He said that the units that were in previous violation have been brought into compliance to work for the special exception as well. Jerry Petzel asked about the contract employees. Ms. Crismore said that most are union employees who bring their own place to stay with them. Mr. Crismore said that sometimes the whole family comes too. He said they are just trying to create an area in the NE corner of the property. Tyson Brooks asked about the rest of the campground. Michael Lautzenheiser told the board that the 5 existing PMRV's are located within the highlighted area. Mr. Brooks asked if people stay longer than a year. Mr. Crismore said that they have had to ask people to leave due to not being able to be there more than 8 months. He said he doesn’t want people living there but staying there while they are on a job is a different story. Mr. Lautzenheiser explained that the special exception would only be good for 1 year and that it would need to be reapplied for every year. Mr. Crismore told the board about how Fort Wayne just broke ground on a major project and if they were able to provide a place for them to stay it would bring money into Wells County as well. Mr. Lautzenheiser talked about how it’s a multi-year project. Mr. Crismore talked about how he felt they have gone thru extraordinary efforts to make things be in compliance. Mr. Petzel asked about where the existing ones were located. Ms. Crismore confirmed the locations. Mr. Brooks asked how many people have been asked to leave due to the timeline restriction. He said there was some concern regarding security and drainage. He said he’s all for the KOA succeeding and enjoyed having a base location. Ryan Crismore said that the KOA has a set standard of rules and if they aren’t met the individuals are sited or asked to leave. Missy Crismore said that she’s asked 4 to leave due to being out of control especially since it’s a family campground. Mr. Petzel asked about the drainage. Mr. Crismore said that they get drainage runoff from the addition. Mr. Yohman said that most contractors like having a base but can be rowdy from time to time. Ms. Crismore said that they wouldn’t be allowed to stay if they caused issues like that. Mr. Crismore said that they have the police patrol at all hours as well. Deidre Licht said she was concerned for the security and that more homes won’t be built due to the sites being allowed. Mr. Petzel asked how far the proposed located was from the addition. Mr. Lautzenheiser explained that it was 330’ away from the neighborhood. Mrs. Licht talked about a lady who now keeps her windows closed due to the change. She voiced her concern about property values. Mrs. Licht talked about the fireworks around the 4th of July and how they shouldn’t be allowed there. He mentioned the fireworks too and how they scared his dog. Ms.
Crismore and Mr. Crismore said that if they felt it was there property setting the fireworks off then call them or if there were any other problems all they have to do is call or go talk to them. Mr. Archbold asked if there would be more PMRV’s moved in. Susan Grove said that she was concerned that it would become a trailer park. She said that she felt a hotel could house them just as easily. Mrs. Grove felt it would hurt the property value too. Ms. Grove said that it would be rental RV’s.

Bev Foreman said she has the same view as Mr. Archbold and doesn’t want to see this happen. Mr. Sundling talked about the drainage and how both plans were approved prior to the current regulations and that it can only be resolved by private owners now. Ms. Crismore responded to the comment about the hotel instead of the campground. She said that most of the individuals bring their “home” with them to save them from staying in a hotel. Mr. Crismore said that he started this place 10 years ago. He talked about how he grew up here and has maintained a good thing for the community. He explained that majority of the spaces would be used by high quality campers and that they are privately owned park models not mobile homes. He talked about the sanitary sewer that was starting in the fall and how they made all the PMRVs comply with the ordinance. Mr. Lautzenheiser asked if the KOA would be ok with a commitment that no further PMRVs could be owned by the KOA. Mr. Brooks asked Mr. Archbold if there were any security issues before the 8 month timeline was granted. Mr. Archbold said that there hadn’t been. Mr. Yohman said that he just stopped mowing a small portion to keep people out of his yard. Mr. Lautzenheiser asked the board if they had any additional questions or concerns. Mr. Petzel confirmed the request of being able to stay longer on the designated sites. Mr. Lautzenheiser said that the KOA will have to come back every year for a quality check to be reapproved. He also talked about the 2nd part for allowing the spots to be within 300’ of the farm ground. Mrs. Barrick asked if the property owner for the farm ground had any concerns.
