[Docket ID FEMA-2024-0002; Internal  
Agency Docket No. FEMA-B-2448]

**Proposed Flood Hazard  
Determinations**

**AGENCY:** Federal Emergency  
Management Agency, Department of  
Homeland Security.  
**ACTION:** Notice.

**SUMMARY:** Comments are requested on  
proposed flood hazard determinations,  
which may include additions or  
modifications of any Base Flood  
Elevation (BFE), base flood depth,  
Special Flood Hazard Area (SFHA)  
boundary or zone designation, or  
regulatory floodway on the Flood  
Insurance Rate Maps (FIRMs), and  
where applicable, in the supporting  
Flood Insurance Study (FIS) reports for  
the communities listed in the table  
below. The purpose of this notice is to  
seek general information and comment  
regarding the preliminary FIRM, and  
where applicable, the FIS report that the  
Federal Emergency Management Agency  
(FEMA) has provided to the affected  
communities. The FIRM and FIS report  
are the basis of the floodplain  
management measures that the  
community is required either to adopt  
or to show evidence of having in effect  
in order to qualify or remain qualified  
for participation in the National Flood  
Insurance Program (NFIP).

**DATES:** Comments are to be submitted  
on or before October 15, 2024.

**ADDRESSES:** The Preliminary FIRM, and  
where applicable, the FIS report for  
each community are available for

inspection at both the online location  
[https://hazards.fema.gov/femaportal/  
prelimdownload](https://hazards.fema.gov/femaportal/prelimdownload) and the respective  
Community Map Repository address  
listed in the tables below. Additionally,  
the current effective FIRM and FIS  
report for each community are  
accessible online through the FEMA  
Map Service Center at [https://

You may submit comments, identified  
by Docket No. FEMA-B-2448, to Rick

**SUPPLEMENTARY INFORMATION:** FEMA  
proposes to make flood hazard  
determinations for each community  
listed below, in accordance with section  
110 of the Flood Disaster Protection Act  
of 1973, 42 U.S.C. 4104, and 44 CFR  
67.4(a).

These proposed flood hazard  
determinations, together with the  
floodplain management criteria required  
by 44 CFR 60.3, are the minimum that  
are required. They should not be  
construed to mean that the community  
must change any existing ordinances  
that are more stringent in their  
floodplain management requirements.  
The community may at any time enact  
stricter requirements of its own or  
pursuant to policies established by other  
Federal, State, or regional entities.  
These flood hazard determinations are  
used to meet the floodplain  
management requirements of the NFIP.

The communities affected by the  
flood hazard determinations are  
provided in the tables below. Any

request for reconsideration of the  
revised flood hazard information shown  
on the Preliminary FIRM and FIS report  
that satisfies the data requirements  
outlined in 44 CFR 67.6(b) is considered  
an appeal. Comments unrelated to the  
flood hazard determinations also will be  
considered before the FIRM and FIS  
report become effective.

Use of a Scientific Resolution Panel  
(SRP) is available to communities in  
support of the appeal resolution  
process. SRPs are independent panels of  
experts in hydrology, hydraulics, and  
other pertinent sciences established to  
review conflicting scientific and  
technical data and provide  
recommendations for resolution. Use of  
the SRP only may be exercised after  
FEMA and local communities have been  
engaged in a collaborative consultation  
process for at least 60 days without a  
mutually acceptable resolution of an  
appeal. Additional information  
regarding the SRP process can be found  
online at [https://www.floodsrp.org/pdfs/  
srp\\_overview.pdf](https://www.floodsrp.org/pdfs/srp_overview.pdf).

The watersheds and/or communities  
affected are listed in the tables below.  
The Preliminary FIRM, and where  
applicable, FIS report for each  
community are available for inspection  
at both the online location [https://  
hazards.fema.gov/femaportal/  
prelimdownload](https://hazards.fema.gov/femaportal/prelimdownload) and the respective  
Community Map Repository address  
listed in the tables. For communities  
with multiple ongoing Preliminary  
studies, the studies can be identified by  
the unique project number and  
Preliminary FIRM date listed in the  
tables. Additionally, the current  
effective FIRM and FIS report for each  
community are accessible online  
through the FEMA Map Service Center  
at <https://msc.fema.gov> for comparison.
